Making a Difference One *Life* at a Time

Give thanks in all circumstances; for this is God's will for you in Jesus Christ.
1 Thess 5:18

We are so thankful for the support we've received this year. Financial partners help us positively impact men, women, and their unborn children who seek the services of Black Hills Pregnancy Center. This year we doubled the number of client visits from last year, and we could triple our total visits by the end of the year. We are blessed to be able to share the love of Christ with these families.

Women are seeking our services and our advocates are showing them the unconditional love of Christ, sharing the gospel, and mentoring them to be the best parents they can be for their child. Prenatal vitamins, nutritional classes for pregnant women, and a Men's mentorship program are just a few of the programs added this year. Clients are excited and very appreciative of these added opportunities.

Our short-term goal is to expand our center in our current location and launch new educational curriculum such as group parenting classes, group life skills classes, and our fatherhood program. To continue our current programs and expand we need to increase our monthly support by \$6,000. This needed monthly support will ensure we can plan and budget next year to meet our clients' needs. Having these resources would allow us to expand our services and positively impact our local community.

It is our goal in 2020 to become an Abortion Pill Rescue (APR) facility where women can seek help within 72 hours of taking RU-486 or Methotrexate to reverse the abortion. This protocol is 64% - 68% successful. Our current Medical Director is in Sioux Falls, but to make APR a reality here, we need a local Medical Director and a few more nurse volunteers trained so we can meet the availability of our clients. To make this happen we must raise \$20,000 in funds to train more nurses to perform ultrasounds and to have the medication at the center available for distribution.

Your financial investment will positively impact the children of our future. Making a one-time gift will help jump start our programs and expansion. A monthly gift of \$500, \$250, \$100 or any other amount God lays on your heart will help us plan our yearly budget so we can empower women to make life affirming decisions.

One *Life* at a Time,

Travis Lasseter
Executive Director

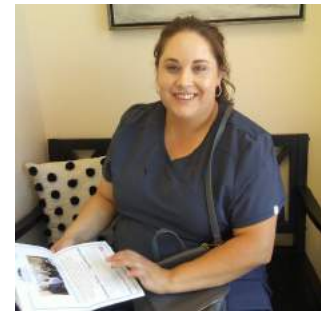

Travis Lasseter is a dynamic and compassionate leader with over 23 years' experience in critical healthcare management and community outreach. An Air Force veteran and current Pennington County Planning and Zoning Commissioner, he brings considerable decision-making, and team-building skills to the Center as well as keen awareness of governmental compliance issues.
